

Acer p. Fireglow

**BOUNTIFUL
FARMS**

Plant the ***Fireglow Japanese Maple*** in a location where it is backlit by the sun and it's dramatic, fiery-red foliage glows! Fireglow has some of the best color retention of all the upright, red palmatums, especially in hotter climates. Moderate growth habit and size make it suitable for smaller areas. Requires consistent moisture in hot weather.

HxS 20'x15'
