Acer p.d. Tamukeyama #10 STD and Branched

**BOUNTIFUL  
FARMS**

**Tamukeyama Japanese Maple** has been cultivated for hundreds of years, and for good reason. This graceful, weeping selection performs well in both cold and heat. The dissected, laceleaf foliage retains its plum color in hot summer sun. Leafing out later than other Japanese Maples helps protect it from late frost.

**HxS 10' x 12'**

**Zones 5 to 9**
