

Rhamnus f. 'Ron Williams'

**BOUNTIFUL
FARMS**

Fine Line® Buckthorn is an upright, columnar, deciduous shrub with lovely feathery, fern-like green leaves. It's dense texture makes it an excellent plant for privacy hedging. Beautiful planted alone as a columnar statement piece or in pairs framing an entrance. Foliage emerges a soft green, then matures to deep green in summer, finally ending a vibrant yellow in fall. Drought tolerant once established; non-invasive and deer resistant.
HxS 7'x3' **Zones 2 to 7**
